**DEVELOPING IDEAS,  
 DELIVERING SOLUTIONS.**

**In Kimua we are not just colleagues, we are more like a family.**

What unites us is the excitement for every new project; with **passion, experience** and an **open ear for your needs**, our engineers love what they do and so do our welders, mechanics and the whole team.

Fast, simple and effective. We really like to challenge ourselves to find the best solutions for our clients and we always work with best standards of quality: **KIMUALITY.**

For us R&D is an essential part of our business and we know well how important it is for the future; thus, we are in touch with universities as well as Technological Centres, in order to always be at the technological forefront.

**TRAINING: DESIGN AND EXECUTION OF  
 LIFTING AND TRANSPORT OPERATIONS**

**TRAINING:  
 THE KEY TO  
 SAFETY.**

**ADVANCED TRAINING IN LIFTING OPERATIONS FOR  
 IMPROVING HEALTH, SAFETY, AND EFFICIENCY**

KIMUA in the wind energy sector

KIMUA in the railway sector

### LEVEL 1

**Load handling 8h** (targeted to end user)

**Theoretical lessons:** 4h

**Number of modules:** 5

**Practical lessons:** 4h

- Crane (maneuvers and circuit)
- Lifting accessories (revision and use)

### LEVEL 1

**Lashing 8h** (targeted to end user)

**Theoretical lessons:** 4h

**Number of modules:** 5

**Practical lessons:** 4h

- Static
- Dynamic

### LEVEL 1

**Product-specific training 8h**

**Theoretical lessons:** 4h  
(manual of use and maintenance)

**Practical lessons:** 4h

- Simulator
- Crane

## Masterclasses: handling and lashing.

### MASTER CLASS A

**Load handling 40h**  
(targeted to process operation, prevention, safety technicians, etc.)

**Theoretical lessons:** 32h

**Number of modules:** 14

**Practical lessons:** 8h

- Crane
- Simulator

### MASTER CLASS B

**Lashing 20h**  
(targeted to process technicians, operation, prevention, safety, etc.)

**Theoretical lessons:** 16h

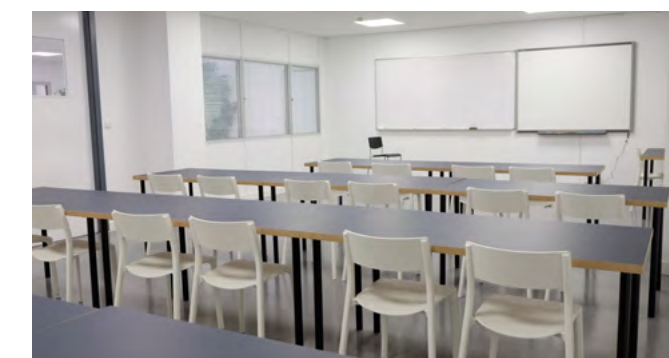

**Number of modules:** 11

**Practical lessons:** 4h

- Dynamic
- Static

analysis and design of the training according to the needs of the client.
